

QUALITY EDGE

Exterior Products With a Quality Difference

GLOBAL METAL SOLUTIONS

An industry leader in metallurgy and high performance alloys, Quality Edge provides the highest standards of quality in steel and aluminum exterior products. We manufacture an extensive range of products, from designer soffits and roofing products to siding.

LEADERSHIP THROUGH INNOVATION

Attention to detail is what turns an ordinary home into an extraordinary one. Quality Edge is known for its product innovation and extensive product selection – including over 70 innovative roof accessories. Quality Edge products combine form and function, enhancing the design of the home while offering exceptional performance and durability.

In addition, through extensive operations, we offer precision roll formed parts as well as an unlimited offering of custom fabricated components. This, along with a variety of patented parts and processes, provide the innovative foundation Quality Edge customers have come to expect.

VIRTUALLY ENDLESS COLOR SELECTION

Color is an integral element of home design. That's why Quality Edge offers a virtually endless color selection for exterior trim products. Many of our roofing and trim products come in 31 system colors to match, complement or accent today's most popular siding products. We also offer over 200 designer colors for select products.
